

MEDICARE AND DIABETES PRESENTATION PREP IDEAS

Here are some tips to maximize your presentation:

Find your local ADA office - <http://www.diabetes.org>

There may be a local American Diabetic Association office close to you. Visit them and see if they have any materials they will allow you to pass out to your seminar attendees. Don't forget to add a small label with your contact info!

Check with your local hospital

Many local hospitals have support groups that meet on a regular basis. Have this info with you at the seminar

Local support groups

Check to see if there are any local support groups that you could direct seminar attendees to

Check out needymeds.org

This website is a wealth of information, from drug info, drug assistance programs, free discount cards, coupons for over the counter items, and more.

The discount card is free to print out and give to seminar attendees (not a bad idea to link this site on your own website)
