Lumico Life Insurance Company Medicare Supplement Agent Program 2020

Lumico's Medicare Supplement (Med Supp) product offers competitive pricing, attractive compensation, and a simple, digital application process. With this in mind, we're excited to once again run a limited time promotion (the Program), rewarding individual agents who sell Lumico policies.

How it works:

Eligible agents who sell four or more Lumico Med Supp qualifying policies during the Promo Period will be entitled to receive an Amazon Fire HD 10 tablet.

Tablets will be shipped to qualifying agents after they meet the criteria.

"We look forward to growing our business relationship over the coming years!"

- Phil Walker

CEO, Lumico Life Insurance Company

Program details:

- **Qualifying sales period:** The Program will start on September 1, 2020 at 9am ET, and run through 11:59pm ET on December 31, 2020 (**the Promo Period**).
- Lumico-appointed agents who sell Lumico Med Supp policies are eligible.
- **Qualifying policy criteria:** A policy is considered a qualifying policy when:
 - the policy is submitted through an electronic application (e-Application).
 - the policy issue date is between the Promo Period.
 - the policy remains active at least 30 days after receiving the first premium payment.
- **Products that qualify:** Lumico's Med Supp product (all coverages, UW and non-UW).

*Note that if payment is received on 1/1/2021 and the policy remains active at least 30 days after receiving the first payment, this will be considered a qualifying policy if issue date is between September 1, 2020- December 31, 2020. In this example, once meeting qualified criteria, expect to receive tablet in February 2021. Upon meeting the qualification criteria, each agent will receive no more than one tablet. Sales in all states qualify for this promotion except for Missouri and Oregon. The Program is subject to all applicable federal and state laws. By participating in this Program, participants agree to be bound by these rules. All rules, terms, and conditions are within the discretion of Lumico and are final and binding.
