# The real risks

Anyone at any time can be diagnosed with **cancer, heart attack,** or **stroke**. Even those who lead a healthy lifestyle run the risk of being diagnosed with one or more of these illnesses. No one likes to think about the possibilities. But the risks are very real.

## Cancer

Second most common cause of death for both women and men<sup>1</sup>

**88%**

of all cancers are diagnosed in persons 50 or older<sup>1</sup>

A new cancer is diagnosed every

**16 seconds**

in the United States<sup>1</sup>

**39%**

of women and 41% of men will be diagnosed during their lifetimes<sup>1</sup>

## Heart attack

Number one cause of death for both women and men<sup>1</sup>

Responsible

for **1** out of every **5** deaths<sup>3</sup>

One of the most

**expensive**

conditions treated in hospitals<sup>4</sup>

Average age at first heart attack<sup>5</sup>

**65.5** males and **72** females

## Stroke

Third leading cause of death in women and fifth in men<sup>6</sup>

Leading cause of serious

**long-term**

disability<sup>7</sup>

Every **40 seconds**

someone has a stroke in the United States<sup>2</sup>

Recovery can be a

**lifelong**

process<sup>7</sup>

# Good news

The survival rates for all three illnesses are increasing. Although, treatment comes at a cost – and those costs are increasing as well.

Number of cancer survivors to increase **24%** by 2032  
67% of survivors are currently 65 or older<sup>8</sup>

**90%** of people who have a heart attack will survive of those hospitalized<sup>9</sup>

**66%** of stroke victims survive **past** the **3-year mark**<sup>7</sup>

## The real costs

Costs of treating cancer will **increase 34%** by 2030<sup>10</sup>

Nearly 50% of cancer patients surveyed said travel **expenses related to treatment** hurt their financial situation<sup>11</sup>

**49%**  
Travel

**35%**  
Lost wages

**23%**  
Home care and caregiving

**14%**  
Other

**Heart attack** patients paid an average of

**\$21,500**

**per hospital stay**  
average length of 5.3 days<sup>12</sup>

Heart disease is one of the **most expensive** health conditions to treat in the U.S.<sup>12</sup>

**Stroke** patients paid an average of

**\$59,900**

**per year** in the U.S.<sup>13</sup>

# Your choice

A lump sum benefit is paid directly to you or someone you designate, regardless of any other health insurance coverage. You can choose a cancer plan or a heart attack/stroke plan or one of each, with different benefit amounts.

## Cancer Insurance

If diagnosed with cancer or carcinoma in situ, this policy will pay 100% of the selected benefit amount – from \$5,000 to \$75,000 (in \$5,000 increments). You choose the amount that is right for you.

You can use this money to help pay medical costs or any other expenses. Only one cancer benefit will be paid for each insured person under this policy.

## Cancer Insurance with Recurrence Benefit

If diagnosed with cancer or carcinoma in situ, this policy will pay 100% of the selected benefit amount – from \$5,000 to \$75,000 (in \$5,000 increments). And if you want to be covered in case the cancer returns, the recurrence benefit is payable as

long as medical advice or treatment has not been received for at least two years from the date of the last cancer diagnosis. The recurrence benefit will pay a percentage of the selected benefit amount (not to exceed an additional 100%).

Period without medical advice or treatment and recurrence	Percentage of benefit amount payable
Less than 2 years	0%
2 years to less than 5 years	25%
5 years to less than 7 years	50%
7 years to less than 9 years	75%
9 years or more	100%

# Our solutions for protection

How would you and your family pay bills if diagnosed with one of these illnesses? This insurance can help you manage those expenses and preserve your savings.

## Heart Attack or Stroke Insurance

If diagnosed with a heart attack or stroke, this policy will pay 100% of the selected benefit amount – from \$5,000 to \$75,000 (in \$5,000 increments). You choose the amount that is right for you.

You can use this money to help pay medical costs or any other expenses. Only one heart attack or stroke benefit will be paid for each insured person under this policy.

## Heart Attack or Stroke Insurance with Recurrence Benefit

If diagnosed with a heart attack or stroke, this policy will pay 100% of the selected benefit amount – from \$5,000 to \$75,000 (in \$5,000 increments). And if you want to be covered in case of a subsequent heart attack or stroke, the recurrence

benefit is payable as long as at least two years have passed since the date of the last heart attack or stroke. The recurrence benefit will pay a percentage of the selected benefit amount (not to exceed an additional 100%).

Period since prior diagnosis and recurrence	Percentage of benefit amount payable
Less than 2 years	0%
2 years to less than 5 years	25%
5 years to less than 7 years	50%
7 years to less than 9 years	75%
9 years or more	100%

# Being prepared

You may have more freedom in treating your illness, without worrying about expenses. Protect yourself by applying for insurance coverage, getting regular screenings, looking for signs that lead to early detection, and recognizing the symptoms.

## Issue ages

18-89 (age last birthday)

## Coverage

Individual, individual and spouse/domestic partner, individual and child(ren), and family. Same lump sum benefit amount for each covered person. Children (18-26) and divorced spouses/domestic partners can convert to an individual policy without underwriting or proof of insurability.

## Plan benefit amounts

Minimum = \$5,000; maximum = \$75,000; increments of \$5,000

## 30 days waiting period

Eligibility for benefits begins 30 days after the coverage effective date.

## 30 days free look

Return any policy for any reason within 30 days after receipt for a full refund of all premiums paid.

## Guaranteed renewable

No worries of cancelled coverage for the life of the policy, as long as the premiums are paid on time.

---

## Definitions

### Cancer

A disease manifested by the presence of a malignancy characterized by the uncontrolled and abnormal growth and spread of malignant cells in the body. This includes: Hodgkin's disease, leukemia, lymphoma, carcinoma, sarcoma, or malignant tumor.

### Carcinoma in situ

An early stage cancer in which the cancerous growth or tumor is confined to the site from which it started, and has not spread to surrounding tissue or other organs in the body.

### Heart attack

An acute myocardial infarction resulting in the death of a portion of the heart.

### Recurrence

Diagnosis that occurs after the one time benefit amount has been paid for the same insured person.

### Stroke

An acute cerebrovascular event caused by intra-cranial thrombosis or hemorrhage, or embolism from an extra-cranial source, with acute onset of new neurological symptoms, and new objective neurological deficits on clinical examination; which persists for more than 30 days.

## Our commitment to you

Continental Life Insurance Company of Brentwood, Tennessee, an Aetna company headquartered in the Nashville, Tennessee area, has an unwavering commitment to providing the best service possible, quick claims payment, quality products with solid financial backing, and friendly associates with extensive knowledge and experience to help with your insurance needs.
