Increasing maximum

Insurance covers a maximum amount per person per benefit period for Basic and Major services combined. The annual maximum benefit increases after year one.

Preventive Plus

Type 1 Preventive procedures are not deducted from the plan's annual maximum benefit. This saves all of the annual benefit to help pay for more expensive Basic and Major procedures.

Teeth whitening

Professional teeth bleaching, also known as whitening, is a popular cosmetic procedure. This plan provides Type 3 coverage toward bleaching procedures recognized by the American Dental Association and performed by a dentist. Professional teeth bleaching can last from five to seven years with proper care.

Child orthodontia benefit

The orthodontia benefit is a lifetime benefit for dependent children up to age 19. Plan payments are pro-rated by monthly periods over the length of the program. Orthodontic services can help straighten teeth, close gaps between teeth, correct bite problems and correct teeth and jaw alignment.

Network information

The Ameritas Dental Network is one of the largest in the nation, making it easier for policyholders across the country to see the dentist of their choice.

- 98% of providers stay with Ameritas year after year.
- Network dentists charge 25-50% less than their regular rates, providing out-of-pocket savings to policyholders.

Policyholders can visit any dentist and family members do not need to visit the same provider. The network offers access to providers in the U.S. and Mexico. Find a [Classic \(PPO\) network provider](#) at ameritas.com — Find a Health Provider.

Individual dental insurance – U&C/Indemnity plan

Dental insurance helps save money

The savings speak for themselves

Procedure	Day-one savings	Year-two savings
Crown	20%	50%
Filling	65%	80%
Preventive visit	100%	100%

*Cost shown is based on 80th U&C and does not include deductible. Additional savings of 25-50% are available with network providers (where available).

MAC/U&C claim allowance

If a policyholder visits an out-of-network dentist, covered benefits are paid at the 80th percentile of usual and customary (80th U&C) charges. This means we expect 8 out of 10 charges from dental providers to be within the amount insurance pays for a covered procedure. Policyholders pay the difference between what the plan pays and the dentist's actual charge. If they visit a network provider, payments are based on the dentist's contracted fees (MAC/maximum allowable charge), which may result in lower out-of-pocket costs.

U&C available in AK, GA, LA and MS.

Indemnity claim allowance

Covered benefits are paid at the 80th percentile of usual and customary (80th U&C charges).

Indemnity available in MT, RI and PA counties of Forest and Potter.

Credit for prior coverage (CPC)

Policyholders with an active dental insurance plan may receive CPC. If qualified, Year-two benefits for Preventive, Basic and Major dental services will apply on day one. Restrictions apply. Not available in all states.

Additional information

Individuals 18+ and their dependents are eligible for coverage. Coverage can begin as soon as tomorrow. Policyholders are automatically opted in to receive same-day access to their policy and ID card electronically in the member portal, or they can opt out and receive them by mail within 10 days.
