Introduction

Thank you for partnering with Allstate Health Solutions for individual Medicare Supplement insurance. This document has been designed to help you understand the underwriting process and guidelines used by Allstate Health Solutions when reviewing applications. This guide contains a general overview of current medical underwriting guidelines and is subject to change at any time.

New business guidelines

Eligibility requirements

Applicants are eligible to apply for Medicare Supplement insurance if they:

- Are covered under Medicare Part A & B.
- Are 65 years of age or older.
- Are Medicare eligible due to disability in a state requiring under age 65 coverage.
- Reside in any of the following states: AK, AL, AR, AZ, CA, CO, DC, DE, FL, GA, IA, ID, IL, IN, KS, KY, LA, MD, MI, MN, MO, MS, MT, NC, ND, NE, NJ, NM, NV, OH, OK, OR, PA, SC, SD, TN, TX, UT, VA, WI, WV, WY.

New business guidelines

Applications must be submitted and received at the home office within 30 days of the application signature date. Once we receive the application, it will be processed in the order in which it was received. If there are any errors on the application, you will be notified as they are found and corrections will be requested. Any errors will need to be fixed before a policy can be issued.

Effective date

All applications must contain a requested effective date. Effective dates must be after the signature date of the application and is available on the 1st through the 31st of the month.

The effective date is required when submitting an application and must be equal to or greater than the Medicare Part B effective date, and after the signature date of the application.

Open enrollment:

- An application may be submitted up to 6 months prior to and 6 months following the first day of the month of the applicant's 65th birthday or up to 6 months prior to and 6 months following the date the applicant becomes eligible for Medicare Part B. And;

- The coverage effective date must be on or after the Medicare A and B effective dates.

Guaranteed Issue: An applicant applying under Guaranteed Issue rights may request an effective date up to 60 days beyond the application date.

Underwritten: An applicant applying outside of open enrollment may request an effective date up to 60 days beyond the application date.

Plan selection: Refer to the state specific application for availability.

Replacements

A replacement takes place when an applicant is terminating existing Medicare Supplement or Medicare Advantage insurance and replacing it with new Medicare Supplement insurance.

Allstate Health Solutions requires a fully completed application when applying for a replacement policy; all replacements involving Medicare Supplement, Medicare Select or Medicare Advantage insurance **MUST** include a completed Replacement Notice.

MACRA

The Medicare Access and CHIP Reauthorization Act of 2015 (MACRA) is a Federal law that was passed on April 16th, 2015. This law changed the available Medicare supplement plans for those who become newly eligible for Medicare on or after January 1, 2020. MACRA requires that Medicare supplement plans that cover the Medicare Part B deductible cannot be available to those who become newly eligible for Medicare on or after January 1, 2020. Those who become newly eligible for Medicare on or after January 1, 2020 may not be issued a policy for Plans C, F, or HDF. However, these plans may be available to anyone eligible on or before December 31, 2019.

Open Enrollment guidelines

Applicants who purchase Medicare Supplement insurance during an Open Enrollment period are not required to provide any health history information.

An Open Enrollment period is available for applicants who are:

- Within 6 months of turning age 65 and enrolling in Medicare Part B.
- Within 6 months of first enrolling in Medicare Part B.
- Now age 65, previously qualified for Medicare due to disability and enrolled in Medicare Part B, now eligible for a second enrollment period.

During this period, Allstate Health Solutions cannot deny insurance coverage, place conditions on a policy or charge a higher premium due to past medical conditions.

Open Enrollment guidelines for applicants under age 65

Some states require that Medicare Supplement Open Enrollment be offered to individuals under age 65 due to disability. Refer to the chart below for details on availability. If a state is not listed, applicants under age 65 are not accepted in that state.

Guaranteed Issue guidelines

Medicare Supplement insurance has guidelines in place that allow qualified applicants to enroll in certain plans without being medically underwritten.

An applicant who is age 65 or older may be eligible for Guaranteed Issue of Medicare Supplement insurance upon the occurrence of certain events that cause the applicant to lose their existing insurance coverage.

Additionally, policyholders who have terminated/cancelled their coverage due to Medicaid enrollment and are now losing that assistance are eligible to reapply under Guaranteed Issue enrollment. Please refer to page 21 for more details.

Certain documentation is required to be submitted for applicant's applying for Guaranteed Issue. Coverage will not be issued as Guaranteed Issue until the required documents are received.

Guaranteed Issue rules and circumstances are complicated and can be difficult to comprehend. Guaranteed Issue scenarios and plan selection may also vary from state to state. Please reference the Guaranteed Issue section of the application for state specific variations or contact our Underwriting Department for assistance when submitting Guaranteed Issue business. **The information below is a summary to help you begin in identifying the federal and state Guaranteed Issue rules, but does not represent the complete wording of the mandate.**

To assist you in understanding the rules, we have provided a chart outlining the Guaranteed Issue events and what type of proof needs to be submitted with the application when your client is applying for Guaranteed Issue. **Refer to the following tables regarding Federal Guidelines and State Specific Guidelines for Guaranteed Issue.**

Guaranteed Issue proof should be sent to uwmedsupp@ngic.com and we strongly encourage it be sent in an encrypted format. Indicate the following in body of email: applicant name, date of birth, and residence ZIP code.

Medicare Advantage (MA) guidelines

Medicare Advantage disenrollment

If applying for Medicare Supplement insurance, there are certain requirements that must be met when the applicant is disenrolling from a Medicare Advantage plan. Underwriting cannot issue a policy unless the specified requirements are met. Refer to the following guidelines to determine what requirements must be satisfied.

Disenrolling during AEP/MADP	Disenrolling outside of AEP/MADP
<ul style="list-style-type: none">Complete Medicare and Insurance information section on the application.Complete a replacement form (NRN-2017).	<ul style="list-style-type: none">Complete Medicare and Insurance information section on the application.Provide the home office with a copy of the applicant's MA disenrollment notice.Complete a replacement form (NRN-2017).

Allstate Health Solutions is not able to issue a policy until the applicant's disenrollment letter has been received in the home office; it must be received within 30 days of the application or the policy will be canceled.

For any further questions regarding MA disenrollment eligibility, contact the State Health Insurance Assistance Program (SHIP) office or call 1-800-Medicare, as each situation presents its own unique set of circumstances.

Enrollment guidelines

Premium

When calculating the premium, utilize the rate sheet within the outline of coverage. Age is calculated based on the requested policy effective date. (i.e, applicant is currently 66 years old, turning 67 on March 5th. If effective date is before March 5th, then the issue age is 66. If the effective date is March 5th or later, then issue age is 67).

Use of tobacco or nicotine in any form within the past 12 months, is considered tobacco use. Anything beyond 12 months will not affect Preferred vs Standard rating on their premium.

Risk classes

There are three separate underwriting risk classes: Preferred Select, Preferred and Standard. Each risk class has a separate premium rate. See table below.

Preferred Select*	Preferred	Standard
Qualify for coverage	Qualify for coverage	Qualify for coverage
Fall within Preferred Select Standards	Fall within Preferred Standards	Fall outside of Preferred Select or Preferred Standards.
AND	AND	AND/OR
No tobacco or nicotine use**	No tobacco or nicotine use**	Use tobacco or nicotine products**
AND		
Answer "no" to the Preferred Select eligibility question.		

* Preferred Select risk class is only available in: AK, AL, AZ, CO, DC, DE, GA, IA, IL, IN, KY, KS, LA, MD, MI, MS, MT, NC, NE, NM, OH, OK, PA, SC, SD, TX, TN, UT, VA, WI, WV, WY.

** Use of tobacco or nicotine in any form is considered tobacco use (examples: nicotine patch or gum, electronic cigarettes). This rate can be applied for applicants during open enrollment or for those who qualify for Guaranteed Issue in certain states.

Standard rates DO NOT apply during Open Enrollment or Guaranteed Issue in the following states: Arkansas, California, Colorado, District of Columbia, Illinois, Iowa, Kentucky, Louisiana, Maryland, Michigan, Minnesota, North Carolina, North Dakota, New Jersey, New Mexico, Ohio, Pennsylvania, Tennessee, Utah, Virginia, and Wisconsin.

In Florida, Missouri, Mississippi, and Montana, only tobacco use is considered when determining Preferred/Standard rates for Guaranteed Issue and Open Enrollment.

Submitting the application

Allstate Health Solutions offers two methods for submitting and completing applications:

- Web application
- Paper application

Each application has its own guidelines to follow when submitting for coverage.

Web application (electronic application or eApp)

The web application is a digital form to be filled out and submitted through the agent portal.

In order to complete an application using the web application process:

1. Pre-qualify the applicant based on the Medical Questions (not required if the applicant is applying under Open Enrollment or Guaranteed Issue).
2. Review the application with the applicant; you **MUST** read the required statements in the Disclosure Section. If the client has not been read these statements, the application cannot be submitted.
3. Log on to the agent portal at EnrollNatGen.com
4. Begin the application on the **Quick Quote** screen. Complete the application in full, which includes:
 - a. The Health Information Authorization (N-HHA-MS)
 - b. If the applicant is replacing coverage: the Replacement Notice (NRN-2017).
 - c. If the applicant is applying during Guaranteed Issue: the Definition of Eligible Person for Guaranteed Issue form (GI-MS).
5. Once you have completed the application you will have the option to select the signature option:
 - a. eSignature
 - b. Voice signature
 - c. Passphrase signature
6. Once the application has been completed, you will be notified of the decision via email.

For fully underwritten applications, an underwriter will be assigned to the case and may contact your applicant to complete the medical risk assessment if necessary.

Once the application has been completed, you will be notified of the decision via email or you may contact the Underwriting Department for a point-of-sale decision.

Paper application

To submit an application using the paper application process:

1. Pre-qualify the applicant based on the Health Information questions on the application. (Not required if the applicant is applying under Open Enrollment or Guaranteed Issue).
2. Complete the entire application.
3. Complete the Health Information Authorization – (N-HHA-MS).
4. If the applicant is replacing coverage: complete the Replacement Notice (NRN-2017).
5. If the applicant is applying during Guaranteed Issue: Complete the Definition of Eligible Person for Guaranteed Issue form (GI-MS).

Additional state specific form requirements: KY Comparison Statement*, IL Policy Checklist*, FL Certification, OH Agent Medicare Supplement Insurance Solicitation Disclosure, LA Your Rights Regarding the Release and Use of Genetic Information**

*Required if replacing coverage

**Must be provided at point of sale, but signature is not required

Once the application has been completed, you can mail the application and initial premium to:

Allstate Health Solutions
PO Box 95464
Cleveland, OH 44101

Initial premium via Electronic Funds Transfer should also be sent to the address listed above.

The completed application can also be emailed to Allstate Health Solutions Medicare Supplement Department at NPSMedicareSuppApps@ngic.com (only available for applications being paid via EFT/ACH).

Any application dated outside 30 days from the date the application is received at the Allstate Health Solutions home office will be returned.

In order to accelerate the application process, verify that the application has been completed in full. Try to be as detailed as possible when filling out an application. This will assist in expediting the process.

Application signatures

All applications require a valid signatures in order to be processed.

*** Paper applications submitted without ACH/EFT payment or initial modal premium check will not be processed until initial modal premium is received.

Web/applications

- Web applications require eSignature, voice Signature, or Security Question. In CA, only eSignature is allowed through web application.
- POA signatures are not accepted on Web Applications.

Paper applications

- All paper applications require the applicant's physical signature.
- POA signatures can be accepted only for OE/GI cases.

Premium payment

Allstate Health Solutions offers two forms of payment for premium charges:

Each form of payment has its own guidelines.

- Bank draft.
- Direct bill.

Credit card payments will not be accepted.

Bank draft

Bank draft is available for all forms of applications and is the only option available when completing a web application. The payments will be set up to automatically draft from the applicant's bank account. Payments can be set up to be made:

- | | |
|--------------|------------------|
| • Monthly. | • Semi-annually. |
| • Quarterly. | • Annually. |

The draft date can be up to the day prior to the policy effective date. The recurring draft payment will be taken on the same day each month. If this day does not exist in a month, payment will be drafted on the next business day.

The initial premium payment can occur any day from the signature date up to the day before the proposed effective date (i.e., signed 1/15, effective date of 2/1/2021, the applicant can have initial draft between 1/15-1/31).

Renewal premiums are defaulted to draft on the 1st of the month OR the policy effective date (whichever is applicable to that specific member). If a member is interested in changing their renewal draft-date to something other than these times, they may call member services, after their policy effective date, to make this request. If a date other than the effective date is chosen for renewal payments, the member could be subject to paying two months' worth of premium in the initial month of coverage.

Direct bill

Direct bill is available for paper applications. We will process all checks as EFT (Electronic Funds Transfer) with the bank. Cash, post-dated checks, money orders, traveler's checks, agent checks and agency checks will not be accepted. Unless required by law or regulation, checks from a third-party payer (such as a foundation or other non-profit) will not be accepted. In some circumstances, checks from a family member or business associate can be accepted.

When completing an application using the Web Application process, the applicant must set up their payments to be automatically drafted from their account. If they wish to have their subsequent payments to be billed to them directly, they are able to do so by contacting Allstate Health Solutions. If the applicant changes payment method from EFT/ACH to direct bill, additional premium may be required at the time of the request change.

Direct bill payments can be set up:

- Quarterly.
- Semi-annually.
- Annually.

Direct bill premium payment checks should be made payable to: Allstate Health Solutions.
Direct bill renewal or recurring payments should be mailed to:

Allstate Health Solutions
PO Box 95464
Cleveland, OH 44101

Required forms

Each application method has different requirements for forms that need to be submitted to the home office:

Web Application: For most states, the forms are built into the Web Application and submitted electronically.

Paper Application: Refer to Paper Application section in this document.

Other coverage/supplemental products

In some states supplemental products will be available to be purchased with Medicare Supplement or standalone. When a supplemental product is sold:

- Only electronic submissions are available.
- All products in the cart must have the same billing method.
 - Credit card will not be an option when Medicare Supplement is in the cart.
 - Direct bill will not be an option when supplemental products are in the cart.
- Effective dates for Medicare Supplement and supplemental products must be the same.

If we are unable to provide coverage for Medicare Supplement the applicant may still qualify for coverage on the supplemental product(s). Applicants can call us at 844-961-9477 to continue the process for the remaining products.

The Dental, Vision & Hearing product has two separate risk classes: Preferred and Standard. If an applicant had a filling, crown, root canal, dentures, or implants within the past 12 months, they will be considered Standard for rating on their premium and not eligible for Preferred rates.

Agent responsibilities

This section does not cover all of the agent's responsibilities. Refer to other sections of the Underwriting Guidelines, the agent contract, and other materials provided.

The Health Insurance Portability and Accountability Act (HIPAA) established requirements and restrictions pertaining to the use and disclosure of Protected Health Information. Please familiarize yourself with both Allstate Health Solutions's HIPAA Policy and Privacy Policy. Your adherence to federal and state laws and regulations that provide privacy protections is mandatory.

The applicant will not be familiar with the underwriting process. Therefore, it is important for you to read the application and forms to the applicant. You can also ask the applicant to read the application and forms themselves and explain anything that he/she does not understand.

Things that can delay the application process

- Licensing and appointment issues.
- Missing information on the application.
- Submitting an expired application; application must be received within 30 days of signature date.
- Premium shortage or no payment submitted along with application.
- Poor quality copies.
- Not submitting proof of Guaranteed Issue reason (i.e., Group Term Letter, Loss of Coverage Notice, etc.).

Tips for completing the application

- Use the applicant's full legal name. Do not use nicknames.
- Ask each question exactly as written.
- Complete the application legibly and in black or blue ink, if submitting a paper application.
- Have the applicant initial and date any correction or mistake.
- If completing a web application, prepare the applicant for the web application process.
- The primary residence address is the physical address where the applicant lives. A post office box should not be used for the primary residence address. The applicant can also provide an optional mailing address which can be a post office box.

Underwriting process

We review applications in the order in which they are received. Once an application has been received and logged into the Underwriting Department, an underwriter is assigned to the case and the application is reviewed. The underwriter will do their best to process the application with the information provided but additional information may be required in order complete the application process.

Applicant must sign to certify the health questions will be answered to the best of the applicant's memory, and also to acknowledge that the applicant's misrepresentation could result in a denial of benefits and/or rescission of the policy. Information from claims activity, or other sources could lead to a file review and inquiry to consider if misrepresentations were made at the time of the application.

Medical underwriting

Medical underwriting is the process of reviewing the medical history of applicants and comparing that information with established guidelines in order to assess the risk associated with providing insurance to that applicant.

Allstate Health Solutions's underwriting guidelines take into consideration many different factors, including but not limited to the following:

- Height and weight.
- Current and past medical conditions.
- Diagnosis and prognosis.
- Use of prescription drugs.
- Follow-up required.
- Chronic nature of the disease.
- Testing, screening, treatment and surgery.

Allstate Health Solutions collects pharmaceutical information on underwritten Medicare Supplement applications. In order to obtain the pharmaceutical information as requested, all underwritten applications must be submitted with a signed HIPAA Privacy form (N-HHA-MS). Prescription information disclosed on the application will be compared to the additional pharmaceutical information obtained in the underwriting process.

The decision to issue coverage will be made by underwriting based on a review of the application and any additional information received.

Underwriting appeals

In the event of an adverse decision, the application could be eligible for reconsideration. Reconsiderations are case specific and should be carefully considered. Agents disputing a decline or rate up are welcome to submit information from the applicant's physician that disputes the reason for the adverse decision.

Information received from the doctor's letter must be current (dated within 30 days of the date of the decline letter) and must be specific to the health condition related to the adverse decision. If adverse decision related to medication prescribed the letter must rule out declinable condition(s) and state condition prescribed for. Allstate Health Solutions reserves the right to request up to three years of medical records to resolve any disputes. Random excerpts from the applicant's medical records will not be accepted. Any expenses to retrieve a doctor's letter or medical records must be covered by the applicant.

Reconsiderations

In the event of an adverse decision, reconsiderations can be offered case by case if the underwriter feels the passage of time might lead to a favorable underwriting outcome. Generally at least one year is needed before the applicant can reapply.

Reinstatements

When Medicare Supplement insurance lapses and it is within 31 days of the last paid to date, coverage may be automatically reinstated by submitting all outstanding premiums without meeting any underwriting requirements.

Reinstatements are subject to claims review and may require a phone interview and prescription history check.

Reinstatements submitted 90 or more days from the date the policy lapsed will not be accepted; after 90 days from the lapse date, a new application must be submitted.

When Medicare Supplement insurance lapses and it is not within 31 days of the last paid to date, the client will need to apply for a reinstatement of coverage where all underwriting requirements must be met before the policy can be reinstated.

Internal replacement (conversions):

Insured individuals requesting to modify benefits under their existing Medicare Supplement insurance policy 90 days after their initial approval or insured individuals requesting to modify their rate class from Standard to Preferred, will be required to submit a new application through underwriting. Follow the Paper Application instructions (a new application fee will also be charged). The internal replacement process is subject to underwriting which requires a prescription history check, claims history review, and telephone interview (if required). There are no Guaranteed Issue options available for internal replacements. Once approved, the benefit change will take effect on the first renewal date following the application date. If the conversion is declined, the existing coverage will remain as is.

Suspension of coverage due to Medicaid Enrollment

A Medicare Supplement policy can be suspended for up to 24 months due to Medicaid enrollment. The policy will be terminated and reinstatement is allowed within 90 days of the loss of Medicaid without being medically underwritten.

To reinstate coverage, we require proof of Medicaid eligibility and termination, along with a reinstatement application. A new policy will be issued (a new application fee will also be charged).

Underwriting guidelines

The purpose of our Underwriting Department is to assess and evaluate the degree of risk associated with offering insurance to an applicant and make an informed decision based on the information received. Applications may be underwritten up until the time the policy goes into effect.

If the applicant has a change in health after the application was signed but before the policy goes into effect, the applicant is required to disclose the change in health. This new information will be factored into the underwriting decision to approve or decline the application.

The main sources of underwriting information are:

- Application.
- Prescription report.
- Telephone interview.

Underwriting diabetes

An applicant who has diabetes without current complications of neuropathy, retinopathy, nephropathy or skin ulcers and without any current or past history of coronary artery disease, carotid artery disease or peripheral artery disease could be insurable.

Some applications will ask about A1C, also called hemoglobin A1C, glycosylated hemoglobin or HbA1c, which is a common blood test used to diagnose both type 1 and type 2 diabetes. A1C is also used on an ongoing basis to gauge how well the patient is managing the diabetes condition. It reflects the average blood sugar level for the past two to three months. If the applicant remembers A1C levels before the most recent one, ask the applicant to provide the levels and approximate dates in Section F under Additional Comments.

The use of Insulin as a treatment is not a determining factor for insurability by itself, unless the amount of Insulin is equal to or greater than 50 units. Further, if the applicant is also significantly overweight and/or has certain medical conditions, such as Heart Disorders or Lung Disease, the risk is generally uninsurable. The Underwriter will consider all of the information in the application as well as other sources to base their decision wherever applicable.

Underwriting pulmonary/respiratory disorders

An applicant who has emphysema, COPD, or any other chronic pulmonary (respiratory/lung) disorder other than mild asthma is uninsurable. An applicant who has asthma, and required treatment in an emergency room or hospital within the past 2 years will be considered uninsurable. If the applicant's pulmonary disorder has requires treatment with supplemental oxygen, or the applicant has been advised that oxygen will be required, the risk is uninsurable.

Drug list information

Drug list information is provided to assist agents in the application process. This is a list of the most commonly prescribed medications for declinable conditions. Applicants may be unaware of a condition listed on the application, but prescribed medication may indicate the condition exists and therefore make the applicant not eligible for coverage with the company.

Uninsurable medications:

Below is a partial list of uninsurable medications. Please contact underwriting if you are unsure about a medication that does not appear in the list below.

If the medication is on the list below but is being prescribed for a condition not listed below or is being prescribed in an “off-label” situation, the condition may or may not be insurable. However, if the “off-label” condition being treated is on the list of uninsurable health conditions, the risk is not insurable. If the situation is not clear, it is best to contact underwriting in advance of filling out an application.
